

# Derone Enterprises TWISTER Ball Washer

## Your best choice for high volume ball washing

- ◆ T10A TWISTER ONE
- ◆ T30A TWISTER THREE
- ◆ T30L TWISTER THREE with built in LOADER!

### **Benefits of the TWISTER Ball Washers**

- ◆ Heavy duty nylon brush rotates inside the patented steel spiral.
- ◆ Small rocks and ball fragments fall through the spiral, reducing jamming or lock ups.
- ◆ Heavy gauge galvanized steel construction for strength and durability, no rust or tank wear.
- ◆ Water is kept in the tank by individual ball ejection rods.
- ◆ Operator safety is assured by electrical disconnect when the tank top is removed. This prevents contact with the brush.
- ◆ Motors are sealed against moisture.
- ◆ Fast draining and cleaning of the tank by utilizing a large threaded drain.
- ◆ All nuts and bolts are nylock and do not vibrate loose.
